

**EN Nuvita 1074**  
**Car Bottle Warmer**

### INTRODUCTION

Congratulations on your purchase of this bottle warmer. It is practical; due to its small size can be placed in the glove compartment of the car. The high-efficiency heating element can heat the milk or the beverage contained in the bottle in short time. The soft and durable materials ensure maximum safety, including protection of the bottle from shock. Before using the product, read this manual and retain it for future reference.

### WARNING

- This device is not intended to be used by people, including children with physical disabilities, sensory and mental disabilities, or lack of experience or knowledge unless they are properly educated and trained to use the device by a competent person and responsible for their safety.
- When using the bottle warmer can reach high temperatures. Handle it carefully and once unplugged the power cord, wait before removing the bottle.
- Keep the product away from children. Do not allow children to handle or play with this device.
- Connect the device only to cigarette lighter (12VDC) available in the car. Do not connect to other power sources.
- Do not connect only the appliance to power source without the bottle. Insert the bottle first and then connect the power cord.
- Check every 10 minutes the temperature of the drink on the back of the hand. Once you reach the desired temperature, disconnect the appliance from power source.
- The heating time depends on the initial temperature, the amount and type of beverage inside the bottle.

### HOW TO USE

1. Fill the bottle and place it inside the bottle warmer.
2. Start the car engine and connect the power cord to the cigarette lighter.
3. After 10 minutes, check the temperature of the drink on the back of the hand. If the temperature is desired unplug the power cord, otherwise wait for 10 minutes more.
4. When finished, unplug the power cord and wait for it to cool before storing in the glove compartment of the car.

### TECHNICAL SPECIFICATIONS

- Suitable for bottle up to 330 ml. of capacity.
- Heating element in carbon fibre material.
- Power cord length 1.5 meters.
- Materials used: polyester, SBR and carbon fibre.
- Dimensions 10 x 6 x 14 cm
- Power rating 12VDC
- Power consumption 14W ± 1W
- Temperature 45°C ± 5°C

### WARRANTY - TERMS AND CONDITIONS

This product benefits of a warranty of 24 months on material and manufacturing defects, starting from the date of purchase (see sales slip). The warranty of 24 months does not include damages caused by the usual use of parties identified as "consumable" (e.g., batteries, brush heads or parts subject to usury).

The legal guarantee of 24 months is void if:

1. The product has undergone aesthetic damage due to improper use not in accordance with instructions in the manual.
2. This product has been modified and/or tampered with.
3. The cause of the failure was due to poor maintenance of the individual components and/or accessories and/or supplies (e.g. oxidation and / or scaling due to the retention of water or other liquids, sediment blocking the sensor, leak of corrosive liquid from batteries.)

The following is excluded from the legal guarantee of 24 months:

1. Costs related to replacements and / or repair of parts subject to wear or costs for ordinary maintenance of the product.
2. The costs and risks involved in transporting the product to and from the store where you purchased or otherwise authorized collection centre to receive the products under warranty.
3. Damage caused by or resulting from improper installation or improper use not in accordance with the directions in the instruction manual.
4. Damage due to natural disasters, accidental events or adverse conditions not compatible with the product.
5. Defects that have a negligible effect on product performance.

The manufacturer, distributor and all the parties involved in the sale do not assume any liability for losses and economic damage from any malfunction of the product. In accordance with current regulations the manufacturer, distributor and all the parties involved in the sale are not responding in any case for damages, including direct, indirect ones, loss of net income, loss of savings and additional damage and other details consequences going beyond the damage caused by the breach of warranty, contract, strict liability, wrongdoing or due to other causes, resulting from the use or inability to use the product and/or paper and electronic documents, including the lack of service.
